

Welcome to the Master's Program in Materials and Manufacturing at Jönköping University!

We are thrilled to have you join our academic community and embark on this exciting journey of advanced learning and discovery. Our program is designed to provide you with a deep understanding of the principles and practices that underpin the field of materials science and manufacturing technology. You will engage in rigorous coursework, cutting-edge research, and hands-on experiences that will prepare you to tackle the complex challenges of the modern manufacturing world.

What to Expect:

1. **Innovative Curriculum:** Our courses are taught by leading experts in the field and cover a wide range of topics, including sustainability in manufacturing, materials characterization, manufacturing processes, advanced materials, and modelling and simulation. You will also have the opportunity to specialize in areas that align with your interests and career goals.
2. **Research Opportunities:** As a master's student, you will be involved in pioneering research projects. Our state-of-the-art laboratories and research facilities provide an ideal environment for innovation and discovery. You will work closely with faculty members who are dedicated to mentoring and guiding you throughout your research endeavors.
3. **Collaborative Environment:** You will be part of a diverse and dynamic community of students, researchers, and industry professionals. This collaborative spirit extends beyond the classroom and laboratory to include professional networking opportunities.
4. **Career Development:** We are committed to supporting your professional growth. Our program help you develop the skills and connections needed to succeed in your future career. Whether you aim to pursue a role in academia, industry, or entrepreneurship, we are here to help you achieve your aspirations.

We are confident that you will find your time in our master's program both challenging and rewarding. We look forward to seeing the contributions you will make to our academic community and the field of Materials and Manufacturing.

If you have any questions or need further assistance, please do not hesitate to contact me at nils-eric.andersson@ju.se. Once again, welcome to Jönköping University and the department of Materials and Manufacturing. We are excited to support you on your journey to excellence.

Warmest regards,

Nils-Eric Andersson
Programme manager for Materials and Manufacturing
Jönköping University/Department of Materials and Manufacturing
