Issue 3. | September

---

**With great pleasure we introduce the new co-director for CEnSE: Magdalena Markowska.** Magdalena is an Assistant Professor at Business Administration and her main research interest is in women entrepreneurship, entrepreneurial identity, entrepreneurial decision-making and contexts for entrepreneurship. Magdalena started her new role on 1st September.

CEnSE member Deborah Strumsky has initiated a CEnSE Writing Group. The group will meet once a month to discuss different aspects of writing/publishing/academic life. Between the meetings the group is split into pairs in order to give and receive detailed feedback on ongoing articles. After a month new pairs are created and the review process continues. The intention is to increase the quality of our work, get to know what others are working on and to promote each other. If interested please contact Deborah Strumsky.
